National Amila meeting and Ansar Leadership Conference 2025

By Iftikhar Ahmed - Qaid Publications

The National Amila of Majlis Ansarullah met for their first quarterly meeting at Baitus Samee Mosque in Houston on January 17, 2025. 19 National Amila members and 13 Nazimeen Ala attended this meeting.

The Amila reviewed the status of various initiatives and metrics for the past year and discussed the 2025 year goals for every department. Sadr Majlis encouraged all members to assess their plans and ensure that Amila learns from past experience and work diligently in a collaborative approach with each other and the Zoama and general membership around the US.

For the next two days, the Ansar Leadership Conference (ALC) took place at the same venue, with 52 Majalis represented through their Zoama or representatives, 13 Nazimeen Aala, and 19 National Amila members, totaling an attendance of 90 participants.

Start of Ramazan Mubarak

The main goal for this Conference is to have National Qaideen and Sadr Majlis to share the current year plans for each department and Majlis as a whole. Various sessions were organized to equip Zoama with the necessary skills to lead their respective Majlis effectively. These included reviewing the Qaideen plans for the year, skills such as leading effective General and Amila meetings, handling challenges, and motivating and helping their local Majalis in pursuing spiritual progress and Alam-e-Inami as an acknowledgement of their relative success.

Sadr Sahib also encouraged interactive workshops and Q&A sessions, and there were social time slots so attendees can meet each other, share their successes and challenges and learn from each other.

Houston Majlis was a great host Majlis for the two events, and arranged comfortable accommodations, and meals and snacks throughout the weekend. As the ALC attendees returned to their Majlis, each of them took ideas and action items to implement and pursue important Majlis work and share what they learned with their general membership.
